

LUCY WIDDOWS

CSR B Candidate

I'm Lucy - joint winner of the 'best craic' award in Freshers Week 2023, QMU Big Bar Quiz host and/or 'the peepeepoopoo girl'. I am also a third year Civil Engineering student from Wakefield who has strong opinions surrounding gravel pathways and preaches the 'go big or go home' mindset. My free time is usually spent bouldering with friends, but my favourite place to be is around live music, despite my own lack of musical talent. I love being silly in the QMU, and I cannot wait to peepeepoopoo with all our members this year.

Becoming part of the QMU has been one of the best decisions I have made - I am proud to be involved with the campaigns, social and events committees, and going forwards want to be even more involved in the planning and execution of events. Hosting the big bar quiz is the highlight of my week and I am dedicated to making it the highlight of our members' weeks too. I love the variety of events we host at our union and want to continue to show how the QMU can be a place to wind down and have a giggle after a long day, or a more serious environment where people can have a voice and stand up for what matters to them. I am eager to improve cross-campus relations, and as part of the Urban Angels committee I am also excited to get them more associated with QMU, as their values align strongly with ours.

Overall, I want to continue to give students a platform to discuss matters close to their hearts, get involved with organising the year's most memorable events and I am confident that this year we can prove that the QMU does have more fun.
