

IZZY SINANIAN

CSR B Candidate

Hello! My name is Izzy! I have been a freshers' helper for two years and I have been a CSR for the past year. I am a fourth year Biochemistry student. I am from London, but I lived in the Philippines for 14 years. Usually, peoples first reaction is "You must feel the cold then", and that is indeed correct. I was trying to think of a way to sound cool and quirky, but the only thing I could think of is to leave you with an interesting fact, which is I can move my ears up and down.

I'm running for CSR B position, as I want to continue being directly involved in the union. For the past two years, I have been a Freshers' helper for the QMU and it has been one of my favourite activities at university. After my first year of Freshers' helping, I joined board. This year, I was a team leader and became Freshers' Helper of the Year twice in a row. Most importantly, I have finally become comfortable and gotten to know all the other board members and staff.

I'm running for CSR because I want to contribute to making the QMU better and a warm environment. If I was elected, I intend to work alongside the welfare and the social committee. Over the past few weeks, I have been liaising with the Welfare Convenor to plan for upcoming gigs, activities, get more students involved, and coming up with ideas for Black History Month. Our current plans are, campaigning for "Movember", a Bob Ross painting session, and a "Pots and Pints" event.

With these ideas, I hope to boost student morale and encourage students to come to different events at the QMU. Thank you for reading and please vote for me!
