

Rose Miller
[she/her]

Current Student Representative B

Candidate Statement:

Hi everyone! I'm running for CSR B. Having previously been both CSR A and CSR B, I'd love to do it all again for my final year at Glasgow!

I've really enjoyed my time on the board and it's been such a core part of my uni experience. I'd love to continue supporting the events that matter to students and help get more people involved so that everyone gets to experience the joy that is the QMU.

I'd really appreciate your vote! <3

Manifesto:

As mentioned above, I have experience as both CSR A and B so I can bring everything I know and have learnt on my previous board terms forward into the role one more time! I have experienced what works in the union and what doesn't, I'm ready to help make a difference.

If elected, I'd focus on:

1. Membership perks:

Ambitious but doable; I'd love to introduce small perks with our membership at the union such as discounts at restaurants or club entry fees! I see lots of society's have stuff like this and I think it would be a great for the QMU.

2. Supporting student led campaigns:

Campaigns are such a key part of the QMU's values. I'd love to help promote the campaigns that matter to students and make it easier for people to find out how to get involved.

3. Environmental causes:

As a MSci environmental geoscience student, I want to use my background to help make the QMU an even more environmentally conscious space with small practical changes that will make an impact.

4. Representing student voices:

Last but not least, listening to what members care about and helping make sure their voices are heard within the union.

I bring enthusiasm, experience and a genuine love for this union. I want to build on what I've learnt, support the work of the board and make my final year at this university count 😊
