

Millie Boulcott

[she/her]

Current Student Representative B

Candidate Statement:

Hello, I'm Millie, I am a third year at Glasgow and study Physics with Astrophysics. I first got involved during freshers week this year as a helper, and I really enjoyed the community I found myself involved in. I got involved in the social, welfare, and events committee, and really want to encourage more people to get involved. I want to continue to grow this community and get people from all sorts of backgrounds enjoying the fun! I wish to continue making the QMU a fun and safe space for all.

Vote Millie 💜

Manifesto:

If I get elected as CSR, I wish to host more day events to do with craft and creativity, run a stitch and bitch or a collage and yap session once a week, so introverts can meet each other, because doing something with your hands makes you less anxious when talking to people. Doing activities together is a good way to meet people, we could decorate parts of the QMU with collages if allowed. Any things made could be sold at a faire to raise money for aid in Palestine, Congo, and other places who would benefit from aid.

I want to implement a single tap in the QMU that only runs on vodka, and the president is the only one who knows which it is, everyone else has to try all the taps.

I will build a throne for the president, it will be gold filigree with neon pink velvet cushions, and we will dress up the Venue as a throne room with a roll out neon pink carpet. All members must be knighted to be part of the QMU. I shall build a sword for the knighting. The president's cape will be made of pink velvet.
